

an evening of contemporary piano with jason farnham

Outreach Information

Some outreach options may be included with the performance fee. For other longer-term residency or master class options, please contact Jason for an accurate quote. Jason has the ability to be extremely flexible regarding clinics and educational programs because his musical style is multi-genre. He possesses excellent pedagogy skills, as he has been teaching piano lessons for 16 years to children and adults. Also, because Jason composes electronic music for Harpo Productions, one popular school outreach program is working with kids by using his laptop and production software. Students are able to add their own 'tracks' to make an original composition! In addition, due to his time living in Merida, Yucatan, Mexico, Jason is fluent in Spanish and has taught English as a Second Language for 8 years.

Specific community outreach examples include:

- (10/09) Mountain Home Arts Council: Nursing Home performance in Mountain Home, Idaho

- (3//09, 3//09) Musician in Residence for "KimonoFest", Canton, Ohio in the Canton Cultural Center: Linking Japanese-inspired music to Japanese art. Jason played pieces from my new KIMONO CD and discussed how the compositions relate to the kimono art exhibit. More information can be found at www.kimonoexhibit.com.

- Interview on a public cable television station for high school students, discussing his music and how to "make it in the music industry"

- Directing choir, playing piano and tutoring Hispanic kids on guitar at various churches

Benefit Concerts:

- Performance and audience Q & A: The Fifth Annual First Star Celebration for Children's Rights
- Performance: Kitten Rescue- Fundraiser gala for the rescue of stray cats
- Numerous retirement community piano performances
